### *What is gelato?*

Gelato is Italian-style ice cream. Our artisan gelato is made fresh daily with only the finest authentic imported Italian flavors and ingredients. Gelato is richer and more decadent than traditional ice cream, yet it's healthier. A 3.5 ounce serving of Gelato typical contains 2 to 4 grams of fat, and has only 120 – 160 calories, depending on the flavor. We also offer dairy free, and no sugar added flavors amongst our twenty-four varieties.
